Deducting this sum from the indebtedness, twill be seen that the net debt December 31, 1883, was \$600,612 35, a decrease in the rear of \$51,642 36. There was spent on the streets and alleys about \$25,000 more in 1883 than in 1882. The Fire Department's expenses were decreased, as a stated recently in this paper, about \$3,000 from those of the previous year. "The Water Works expenditures were decreased over \$50,000, there having been special outlays in \$2 for new works and the thirty-inch main. There was a material increase in the receipts from licenses, and also in the revenues from the city scales. The Chief of Police turned over in 1883, \$0 823 05, against \$3,187 23 in 1882, possibly owing in some in mature to the increase of the police force in August. The police expenses in 1883 were \$14,811 40, and in 1882, \$10,085 22. The assessment for 78 began to come in earlier than in former years, which increased the revenues decidedly. Clerk Bowers explained that there is over \$18,000 due as interest on outstanding loans which was not reported by the Commirsioners. This sum, therefore, stands as credits when it should be recorded as debits. To offset this, however, City Collector Urruh has paid \$25,000 on the debt of 1871, which was not reported in time for the summal report. Had both these sums been included the showing would have been even better than it is.

The report will be published in full assoon expressioned to Council by the Committee on Floance and Accounts.

PAYNE'S TRIUMPH.

An Houest Democratic Newspaper De nounces the Corrept Jub. leubenvi le Gazette.

It is with the methods used for his election that we must deal at this time. Mr. Payne may be able to viudicate himself, but the means employed in his election will have an everlasting bad effect on the Democracy, not only of Ohio but of the whole country. The Democratic party has arrayed itself agains Democratic party has arrayed itself against monopoly and against rings. How can we go before the people now with the watch words "Anti-Monopoly" and "Anti-Ring" inscribed upon our hanners, when both Monopoly and Ring have shown such power within the party as to elect the United Slaves Senstor, and that, too, against a man who has always fought in season and out of season against rings, against monopolies, against the use of money in politics, and maginst corrections. and analysication in season and out of sea-son against ranga, against monopolies, sgainst the use of money in politics, and against cor-ruption—a man who has not the least tain of dishonor on his name. The election of Henry G. Payne by the means employed has thrown cold water, so to speak, upon the ardor of the incorruptible constituents of the Demogratic party. It has set the new

States Senstog! It is against the employment of such corrupt methods that we fight. The Republican party is falling apart, because it reeks in the corruption of rings. The Domocratic party was on the way to success, because it is opposed to corrupt methods, now known as Republican methods. The Democratic party wer growing strong with the people, because it was pure and incorruntials because it was pure carried by

have as yet occurred there is enough there to warrant all necessary expense in the line of experiment. The rock is of the oil-bearing quality, and is saturated with petroleum. Near the point from which this was taken are two wells that have yielded oil during the past 21 years. The fact that this oil-bearing rock is at the surface has given rise to the theory that there is a great. given rise to the theory that there is a great deal of oil several hundred feet below deal of oil several hundred feet below. The idea is to be put to a test soon, as a company is to be formed and a drill set to work. There was a great deal of excitement in that part of the State some years ago, but as the yield did not pay for the cost of experiments they were abandoned, and those interested went over to the more profitable fields of Pennsylvania.
